CPP WLS

Weight Loss Surgery

Specializing in laparoscopic bariatric surgery

Danger signs during the first 2 weeks after surgery

If you experience:

- **Severe abdominal pain not relieved by Tylenol**
- **Have a temperature of more than 38.5° C**
- **Heart rate of > 110 beats/minute**
- **Become very short of breath while resting**
- **Painful, warm, swollen calves**
- **General feel of malaise (i.e. not feeling well and can't walk with ease)**
- **Unusual intense pain in the left shoulder**
- **Vomit blood**

You are **strongly encouraged to present yourself at the Jean Talon Hospital emergency room**. Dr. Chow has an agreement with the bariatric surgeons at this hospital to accept complications. If you're outside of the Montreal area, please present yourself at the emergency of the closest local hospital. Also contact our bariatric nurse by phone or email during business hours (Monday to Friday 8 am to 3 pm) and by email only outside of business hours.

Jean Talon Hospital:
1385 rue Jean Talon Est
Montreal, Quebec, H2E 1S6
